Mr. P.

I have enjoyed being in your classes and I'll always remember you. You've given me so many intangible "assets" to take with me on my way through life. Some you have made music live and it has become an integral part of my life for if it were taken from me I would not be a total person. I take so many cherished memories with me as I leave. You have not only been a teacher to me but also a friend and a true inspiration. It is teachers like you who have influenced and now I have decided to make teaching my career. I do hope I will be as you do. I shall be so happy to give you me. I hope you can return some of it to the children.

Always -

Mary

Mr. Pallante
How can I thank you for all those music lessons you suffered through with me. They really helped me and truly appreciated them. I hope you have a great choir next year and an even better self team (which is more important). Thank you for everything - you were more than just a teacher to me - you were a friend and I can truly say that I will miss you the most among my high school teachers.

Carol Hoffman

Mr. Pallante -

What can I say except, that I sure am sorry and sad about us not going to state. We did our best for our favorite teacher.

You've become a real friend.

I sure do look up to you and I'm sure I always will.

Best of luck with the choir next year. If they love you as much as we do, they can't go wrong.

Remember me to your faithful girl tenor's

Mr. Puckente:
I would like to say that
your class was the most
exciting and funniest
I have ever had. I appreciate
the knowledge you gave
me in the time we
spent together. I will
never forget
you. Always,
P.S. You have never
let me down.

Guidance

The fundamental purpose of South High School is to educate its students in a way that will benefit each one. The primary concern of our faculty is to insure that this purpose will be achieved. Our faculty not only endeavors to instill in the pupils knowledge in the form of facts, but also tries to stimulate a desire to seek knowledge through individual effort. The desire to engage in independent study is found in all classes. Under the guidance of an understanding and interested group of teachers and administrators, the student body of South continues to reach for high plateaus of achievement.

for making me ridige the
wonderful powers in music
I am truly going to miss
knowing Mike Ap. I got
